Doesn't matter. I know what happens to a man after he ejaculates and then waits an hour to do it again.. it's hours and hours of fucking because it's harder for him to ejaculate again. That's what you did with her. Oh well. I'm going to get mine soon. A man that lusts over me and we fuck four times in 24 hours at least... and then hours and hours of it. Can't wait.
